

Memorandum

To: Nail Technicians, Salon Owners, Schools and Other Interested Parties
From: Kris Chiles, Section Administrator
Date: February 18, 2005

SANITATION AND SAFETY REGULATIONS

Effective **February 12, 2005**, the Regulations governing SANITATION AND SAFETY RELATING TO NAIL TECHNOLOGY SERVICES have changed. Enclosed is a copy for your review.

REMINDERS

1. You must follow these rules and you will be inspected to see if you are in compliance. The regulations must be posted where the clients, employees and students can see them. Remove the previous rules that are now posted and put these up instead.
2. You must hold a current NEBRASKA Nail Technology license to work on artificial nails (this includes filing, fitting, applying, painting, airbrushing, or repairing artificial nails).

If you hold a license in another state, you can not provide nail technology services in Nebraska until you receive a Nebraska license.

3. You must use a clean or new nail file on EACH CLIENT; you must use a clean nail clipper on EACH CLIENT (you must follow the disinfection rules on pages 7-9 for cleaning your files and tools).
4. You CAN NOT use sable nail dusters/brushes to clean client hands.
5. You MUST clean your hands **before** serving a client (wash with liquid soap and water or instant hand sanitizer).
6. Your client must wash his/her hands before you start a service.
7. You MUST sanitize your table after each client . This means you must spray the table with a sanitizer and then wipe the table and hand rests with a clean towel.
8. You must store all clean tools/files in a clean closed container (they can not be stored in open containers or just laying on the top of your table)
9. If you or your client is injured during a service and the finger/toe bleeds, you must follow the blood spill procedures on page 9-10 of the enclosed regulations.
10. The following CAN NOT be in your salon:

- a. Credo blades/implements used for cutting nail beds, corns, or calluses;
- b. Chamois buffer;
- c. Products containing MMA;
- d. Sable or fabric nail dusters;
- e. Styptic pencils;
- f. Coarse nail drill bands; and
- g. Cabinet fumigants.

CONTACT FOR QUESTIONS

When you call or write the Department be sure to identify your profession and license number. If you have any questions relating to the information in this memo, contact Carol Gray at 402-471-4920 or carolann.gray@hhss.ne.gov
